Your industrial oil requirements

Company profile and contact details

V C LUBRICANTS serves industrial lubricant enquiries for machine shops, factories and processing applications. Share your equipment details, current oil label and required quantity to identify the product and brand you need.

BRANDS AVAILABLE

SERVO • Shell • Castrol • MAK • HP • Mobil • Gulf
Total / ELF • Valvoline • Fuchs • Tectyl • Blaser
Hangsterfer's • YBI • Crizol • MACCWELL

HOW TO USE THIS CATALOGUE

The following illustrated tables use product references from the supplied Crizol booklet. These are manufacturer product names and grade references, not V C manufactured products. Confirm the exact brand, grade, current product data sheet and availability before ordering.

Match the equipment maker's specification. Product numbers are not always viscosity grades; products with similar numbers are not automatically interchangeable.

Metalworking & machine tools

Coolants, slideways and general machine lubrication

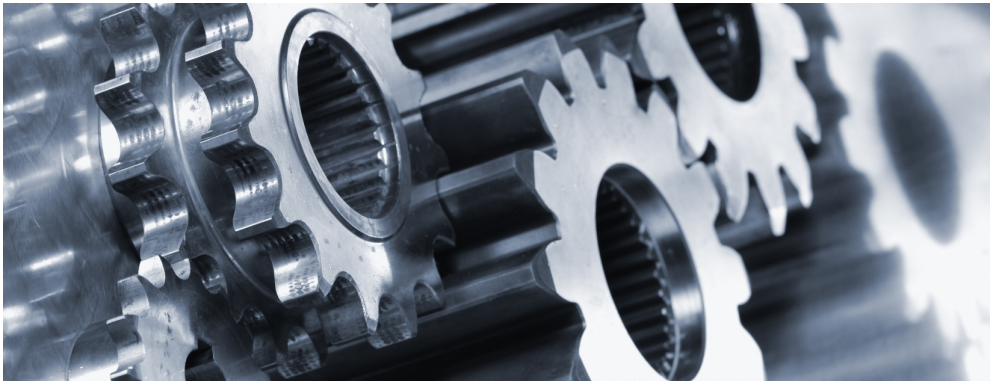

CRIZOL PRODUCT REFERENCE	APPLICATION
Kool Cut / Bio Cut	Water-soluble cutting oils for ferrous and non-ferrous machining.
HD Kool	Heavy-duty machining coolant.
SS Kool	Semi-synthetic coolant.
Synth Kool	Synthetic coolant for machining and grinding.

SLIDEWAYS & GENERAL MACHINE OILS

CRIZOL PRODUCT REFERENCE	APPLICATION
Slide Way 32 / 46 / 68 / 100 / 150	Lubrication of machine-tool slideways.
Line 68 / 100 / 140	Total-loss systems, textile machinery, enclosed chain drives and medium-speed gear drives.

Industrial gears & cutting

Gear drives, turning, broaching and deep-hole drilling

CRIZOL PRODUCT REFERENCE	APPLICATION
Mesh SP 68 / 100 / 150	Splash-lubricated gear drives.
Mesh SP 220 / 320 / 460 / 680	Gear systems operating under heavy and shock loads.
SGO 68 / 100 / 150 / 220 / 320	Synthetic gear oils for continuous heavy-duty operation.

CRIZOL PRODUCT REFERENCE	APPLICATION
Cut 12 / 22 / 32	Automatic and semi-automatic machining.
Cut 12S / 22S / 32S	Non-ferrous metal machining.
Cut 945 / Broach 11 / DHD 10	Respectively: gear cutting and hobbing; steel broaching; deep-hole drilling of ferrous parts.

Hydraulic & compressor systems

Hydraulic circuits, air compressors and vacuum pumps

HYDRAULIC OILS

For industrial hydraulic applications. The exact fluid must match the pump, operating conditions and equipment approvals.

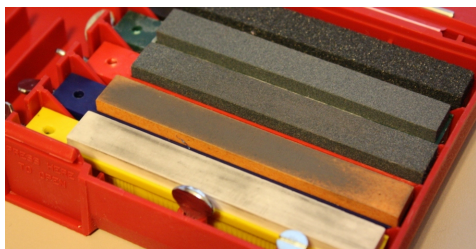

CRIZOL PRODUCT REFERENCE	APPLICATION
AW 32 / 46 / 68	Hydraulic systems.
System 32 / 46 / 68 / 100 / 150 / 220 / 320 / 460	Hydraulic system range; select the specified grade.
HLP 32 / 46 / 68 / 100	High-pressure hydraulic applications.
FRHF 40 (WG)	Fire-resistant HFC fluid for specified steel and aluminium die-casting applications.

COMPRESSOR & VACUUM OILS

CRIZOL PRODUCT REFERENCE	APPLICATION
SYNCOMP 68	Synthetic oil for screw compressors.
SYNCOMP 68 P	Synthetic oil for reciprocating compressors.
Vac VM 4	Oil-sealed mechanical vacuum pumps.
Vac VM 40S	Synthetic vacuum oil; confirm suitability for the required vacuum system.

Precision & heat transfer

Honing, spindle lubrication and thermic-fluid systems

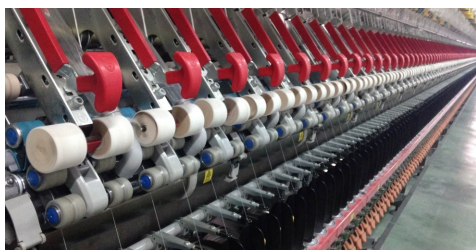

HONING OILS

CRIZOL Hone 480

Medium-duty honing of metals.

CRIZOL Hone 981

Super / fine finishing applications.

SPINDLE OILS

CRIZOL Spin 2 / 5 / 10

High-speed textile machinery.

CRIZOL Spin 12 / 22

Bearing and spindle lubrication.

THERMIC FLUIDS

CRIZOL HT Therm 500

Textile, pharmaceutical, chemical and processing plants.

CRIZOL HT Therm 600

Closed-loop heat-transfer systems; verify the current operating temperature limits.

Heat treatment & protection

Quenching, cleaning and rust prevention

QUENCHING OILS

CRIZOL Quench 39 / 42 / 43

Heat treatment of alloy and tool steels.

CRIZOL Mar Quench 85

Hot quenching of carburised gears.

INDUSTRIAL CLEANERS

CRIZOL Clean 40S

Cleaning of ferrous and non-ferrous metals.

CRIZOL Clean 100W

Water-based spray cleaning of ferrous metals and aluminium.

RUST PREVENTIVE FLUIDS

CRIZOL Coro Stop 901 / 320W

Dewatering, storage and transit protection of ferrous components.

CRIZOL Coro Stop 600A

Protection where acid-fume resistance is required.

Speciality products & enquiries

Tell us what your machine and process need

ADDITIONAL PRODUCT FAMILIES

Blanking oils • Drawing and stamping oils
Minimum-quantity / mist lubricants • Synthetic refrigeration oils
Turbine oils • Zinc-free hydraulic oils • Fire-resistant hydraulic fluids

ALSO IN OUR INDUSTRIAL ENQUIRY RANGE

EDM oils • Transformer oils • Rubber process oils
Industrial white oils • Tapping / drilling fluids • Protective coating oils
